## Introduction

The GAFSP Trust Fund (“Trust Fund”) was established as a Financial Intermediary Fund (FIF) in April 2010 in the World Bank. The GAFSP is a multilateral mechanism to assist in the implementation of pledges made by the G20 in Pittsburgh in September 2009. The objective is to address the underfunding of country and regional agriculture and food security strategic investment plans already being developed by countries in consultation with contributors and other stakeholders at the country level. The GAFSP operates through two windows: Public Sector Window and Private Sector Window. The Public Sector Window is managed under the Trust Fund while the Private Sector Window is managed by the IFC. This report covers only the Public Sector Window.

The report is produced by the Trustee in accordance with the Trustee’s role in the GAFSP Governance Document as set forth under Section 5, which states:

*“The Trustee will provide to the Steering Committee regular reports on the financial status of the Trust Fund, as set forth in the Contribution Agreements.”*

Section 9 of the Standard Provisions in the Contribution Agreements for the Public Sector Window states as follows:

### HIGHLIGHTS FOR THE PERIOD OCTOBER 1, 2022 TO DECEMBER 31, 2022:

The Trustee executed contribution agreements with Germany for EUR 60.6 million and EUR 148.2 million. Both contributions were received during the period.

In addition, the Trustee executed a contribution agreement with Spain for EUR 5 million.

Under existing multi year contribution agreements with Germany, funds totaling EUR 24.9 million were deposited into the Trust Fund.

### 3. Asset Mix and Investment Income

#### ASSET MIX

Cash assets held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the "Pool") for all trust funds administered by the World Bank. The assets in the Pool are managed in accordance with the investment strategy established for all trust funds administered by the World Bank.

The Trust Fund balance is currently invested across three of the Pool's investment model portfolios ("Model Portfolio 0" (MP0) with an investment horizon of up to three months, "Model Portfolio 1" (MP1) with an investment horizon of one year, and "Model Portfolio 2" (MP2) with an investment horizon of three years). While MP0 has the objective of ensuring timely availability of funds to meet the short term cash flow needs, MP1 and MP2 aim to enhance returns subject to capital preservation with a high degree of confidence (based on statistical models) over the respective investment horizons.
